

MARGOT WEBB

Candidate for the California 38th Assembly District

I would like to become your delegate, because I believe strongly in our Democratic Party and in our President Barack Obama.

In our community, I have helped in many schools lecturing about historically important events, and have received 2009 Holocaust Memorial Project Award, as

outstanding service to the community, from the California State Assembly.

During the mid-term elections, I have worked and hosted phone banks on a regular basis, have supported the President in his Health Care Project, and was acknowledged by the President for my contribution

Previously, I worked for Fair Housing, have counseled gang members, written books for young people on some of the problems we have in our society.

I was a teacher and lecturer, and continue to do this in our community, as well as abroad.

Margot Webb,
