Send Winograd to the House— Send Harman Home!

Why Jane Harman Must Go—

Harman voted for:

- Government waste on trillion-dollar wars that make us less safe
- Spying under the Patriot Act, a free pass for telecoms that spied
- Bankruptcy bill that penalizes people who can't pay their medical bills

Harman is too busy fending off the FBI to concentrate on the needs of the 36th Congressional District (West LA to San Pedro).
